Ingredients

400g ground beef mince
300g ground pork mince
2 slices white bread, crusts removed
1 onion
1 large egg
¼ cup milk
½ teaspoon black pepper
¼ teaspoon ground allspice
¼ teaspoon nutmeg
¼ teaspoon garlic powder
½ teaspoon salt
1 tablespoon oil (for frying)

For the gravy

3 tablespoons flour
3 tablespoons butter (40g)
3 cups beef stock
½ teaspoon Dijon mustard
½ cup heavy cream
Fresh parsley, chopped

Instructions

1. Preheat oven to 180 degrees Celsius.
2. Tear bread into pieces and place into a bowl with the milk. Leave for 5 minutes to absorb.
3. Place onion into food processor fitted with steel blade and pulse until finely chopped.
4. Add the bread and milk mixture to the food processor along with remaining meatball ingredients. Process until well combined.
5. Roll into golf ball-sized meatballs and set aside.
6. Heat oil in a large skillet over medium heat. Brown the meatballs in batches, turning occasionally.
7. Once meatballs have browned, place on a lined baking sheet. Cover with foil and bake for 25 minutes or until cooked through.
8. In the meantime, get started on the gravy. Drain off any excess oil from the skillet and melt the butter on medium heat.
9. Slowly whisk in flour until smooth and cook for 1 minute.
10. Slowly add beef stock a little at a time, whisking as you go. Bring to a simmer and continue to whisk until the gravy begins to thicken.
11. Return the meatballs and juices to the pan with the sauce.
12. Add the cream and mustard and cook for another 1-2 minutes, then remove from stove.
13. Serve over mashed potato and sprinkle with parsley.

SWEDISH MEATBALLS

Makes approx. 6 servings

HITTING THE ROAD THIS WINTER?

TRY THESE TIPS TO MAKE THE MOST OF YOUR TRIP

1. **Be prepared for spotty internet coverage.** Download songs, maps, audiobooks and Netflix shows to your devices before you go for uninterrupted access on the road.
2. **Make sure your car is road trip ready.** Checking things like tyres, oil, battery and coolant is essential to avoid an unexpected and unwelcomed detour.
3. **Layer up.** Layer long-sleeved tops, scarves and jackets to easily adjust to changing temperatures along the way. Having the car heater on high can also cause drowsiness, so layers will keep you comfortable while staying alert.
4. **Create a road trip scavenger hunt.** Give tech-savvy kids an old smartphone and a list of items to spot or photograph along the way - it'll keep them occupied and encourage them to enjoy the ride.
5. **Plan in advance where you'll stop for a break.** You'll add experiences you might otherwise miss, and create some memories along the way.

**ROAD TRIP
TIPS & TRICKS**

Davey's Monsoon IQ with remote monitoring makes it easier for Yarra Valley vineyard De Bortoli, to set the exact irrigation specs they need, given the weather and field conditions.

Your partner in customised commercial water solutions

DAVEY

Basis^{xc}

MAKE YOUR FERTILISER GO FURTHER.

Success in agriculture is all about efficiency & making the most from your investment. With pricing and supply of phosphate fertiliser under pressure this season, making your fertiliser go further is more important than ever.

Maximise nutrient release. Maximise yield potential. Treat your fertiliser with Basis XC.

BENEFITS

Increases availability of applied nutrients leading to:

- More efficient utilisation of macronutrients and micronutrients in compound fertilisers
- Improved seedling vigour leading to more even crop establishment
- Increased early biomass & dry matter
- Improved crop yield potential

Life pressures

When faced with a challenging situation or stressful event, our bodies respond by activating the nervous system and releasing hormones including cortisol and adrenalin. These hormones bring about certain physical changes in the body, helping us to react appropriately and deal with the challenge presented. However, if the stress is ongoing and the physical changes do not subside, we may feel overwhelmed and unable to cope.

It is important to be able to identify when stress is affecting us in a negative way. Identifying the cause of our stress and making changes where possible is a good starting point.
